Callbacks:

"This is (your name) from Georgia Urology returning your call. How can I help you?"

Callback Voicemails:

"This is Georgia Urology returning your call if you still need assistance please call us back, we are experiencing longer than normal wait times but we ask that you hold for an agent. We appreciate your patience and thank you for choosing Georgia Urology."

Outbound:

"Good morning/Good afternoon this is (your name) with Georgia Urology. Am I speaking with Mr./Ms. _____?"

Standard Greeting (Inbound Calls):

Thank you for calling Georgia Urology Patient Support Center. This is (your name). How can I assist?

Wrap Up:

"Is there anything else I can help you with? Thank you again for calling Georgia Urology."

Dropped Calls (due to know technology issues):

"Thank you for calling Georgia Urology. This is (your name). I am sorry we just experienced a system issue that resulted in us losing calls. I apologize for any inconvenience this may have cause you. How can I help you?"

Dead Air:

- Use the standard phone greeting- Wait 10 seconds
- Do a second abbreviated greeting- "Georgia Urology this is (your name)"- Wait another 10 seconds
- Simply say "Hello"- Wait another 10 seconds
- End the call with the following statement: **"Disconnecting call due to no response."**

Deceased/Expired Patients:

"I am very sorry for your recent loss and am glad to assist during this difficult period. I can cancel the patient's/your (specific relation)'s upcoming appointment at this time. May I ask the date of passing for my records? (Wait for response) Thank you. (Cancel appointments) All upcoming appointments have been cancelled. Is there any other way I can assist you? (Wait for response) Thank you for calling Georgia Urology, we express our condolences to you during this time."

Dismissed Patient:

"I am unable to schedule your appointment at this time due to a lock on your account, but if I could get your best contact information, I'll be happy to reach out to the proper parties to see what we can do about unlocking your account."

DASH New System Response:

"I apologize this is taking a bit longer than usual, we implemented a **new scheduling system** recently and I am still getting comfortable with the new process. **You can expect the next time** you schedule an appointment; it will be much smoother and easier. "

DASH Connect Closing:

"In the next 30 minutes you'll receive an email confirmation with your **appointment details**. **Three to** two days prior, you'll receive an email and text with your online check-in through our system called, Phreesia. Please complete this upon arrival. "

Available Dates in DASH Self:

"We understand that you were on our website and saw the available as soon as date, however, this is the earliest availability throughout our practice and may not be available with the provider or appointment type you are requesting. I apologize for any confusion this may have caused; I'll be happy to continue scheduling your appointment."

DASH Guarantor (PEDS only):

"May I have the full name and dob of the person that will be legally responsible and will serve as the guarantor?"

Circumcision Consult:

When scheduling a circumcision consultation, the following information needs to be reviewed with the parent, caregiver, or physician's office after you have **confirmed the patient's age**.

"I would like to clarify that this appointment is a consultation with the physician, surgery will not be performed on this day. Our physicians perform Circumcisions once the child is 6 months

or older based on availability unless urgent or medically necessary. We perform circumcisions in an outpatient or hospital setting under general anesthesia. The physician will perform a physical exam & discuss the scheduling process during your consultation."

****Disclaimer:** If the child is under 3 months and the parents request to be seen sooner read the script below:

*We are happy to schedule your appointment sooner, however a follow-up appointment may be necessary prior to scheduling the procedure. ****schedule the appointment 2 to 3 weeks out*****

Foster Parents/Pending Adoptions:

"We do not perform circumcision for religious reasons. We perform circumcisions in an outpatient or hospital setting under general anesthesia. This requires an initial consultation to determine if the patient is a good surgical candidate. Scheduling the process can take anywhere from 6-8 weeks after the consultation and the patient must be 6 months of age or older."

We want to be informed but these scenarios should be few and far between.

Orthodox Jewish practice:

A mohel (mohel/a person who performs the Jewish rite of circumcision) handles newborn circumcisions- especially in the religious community

If there is a physical or medical problem, then the mohel will tell family to see a pediatric urologist. This does not mean that we will do circ on day 8 of life. We just weigh in as to whether the mohel can do it or not.

Dr. Scherz provided names of two mohel's- We can give the names, but the caller will have to research and reach out to them on their own. We aren't making referrals just helpful information to further assist the caller.

- Dr. Arthur Gumer
- Dr. Jonathan Metzl

If there is a medical problem that prevents the mohel from doing the circumcision our physician will perform the procedure using our current guidelines. It will not be expedited but the Rabbi ****may**** be present during the procedure to say the required prayers. The parents would have to discuss this with the physician during the consultation. The Patient Support Center cannot guarantee this will occur they can just advise the parents to discuss with the provider.

If the parent declines, use the listed rebuttals:

- (1) "I understand your concerns, but our physicians would like your child to **be seen in the HAWK clinic first**, and only if there is a surgical reason would your child **need to be seen** by one of our Pediatric Urology Surgeons."
- (2) "Let me walk you through what our HAWK clinic has to offer via our **website** gaurology.com. Our Nurse Practitioners have a wealth of knowledge **dealing with all** types of voiding dysfunctions and they publish blogs on the subject on a **regular basis**."

Vasectomy Consult:

"I would like to clarify that this appointment is a consultation with the physician. This visit is for you to discuss the details of the vasectomy procedure and receive clarification of any questions you may have.

If you decide to move forward with the procedure after your consultation, the physician will then discuss the scheduling process. The procedure can usually be scheduled for 6-8 weeks later."

Waitlist:

"You'll receive an email confirming that you have been added to the waitlist. If an earlier appointment becomes available our system will send you a text message to move up your appointment, but you only have 15 minutes to respond. If you fail to respond within that timeframe the system will add you to the end of the list."

New Patient Call Audit

Agent: _____

Auditor D. Frazier Date: _____

Call handling that would result in an immediate failure:

(See list below, this is not an all-inclusive list)

- ✓ Irrate patients require escalation to the practice Administrators via email
- ✓ Multiple calls—Your ability to resolve the patients' issues in the first interaction, reducing the need for the caller to call again with the same request (includes transferring caller to appropriate person when necessary)
- ✓ Placing an incoming call on hold before greeting patient and collecting foundational call information
- ✓ Transfer call – *Before transferring always educate the caller about who they are being sent to, what to expect, and ask for their permission to complete the transfer*
- ✓ Disconnecting a call with no documented return call
- ✓ Giving patient/caller medical advice without advance approval.
- ✓ Giving PHI to an unauthorized person
- ✓ Not executing CCI script
- ✓ Transferring care: Transferring care without physicians' prior approval (*Each provider has their own preferences on whether a phone note is required for transferring patients.*)
- ✓ Not validating patients' information
- ✓ Merging charts without verifying patients' information (Name, D.O.B, address, and phone numbers)
- ✓ Confirms an appointment that is not scheduled

Expectation 90% or above

Review of Appointment Scheduling:

A. Appointment Scheduling -Placement Accuracy

- a. Properly introduce yourself and the company to the caller on incoming calls, callbacks, outgoing calls, or when leaving voicemails
☐ Yes ☐ No 15pts
- b. Looks up patient per protocol
☐ Yes ☐ No ☐ N/A 10pts

- c. Correctly enters chief complaint to drive the appropriate event type
☐ Yes ☐ No ☐ N/A 10pts
- d. Asks applicable triage questions and correctly selects caller's response
☐ Yes ☐ No ☐ N/A 10pts
- e. Answers the post Triage question pop ups appropriately
☐ Yes ☐ No ☐ N/A 5pts
- f. Fully notates chart (Chart Details)
☐ Yes ☐ No ☐ N/A 10pts
- g. Schedules appointment according to the insurance grid.
☐ Yes ☐ No ☐ N/A 5pts
- h. Follows departments protocols and guidelines
☐ Yes ☐ No ☐ N/A 5pts
- i. Utilized appropriate resources prior to transferring the call. (Ex: floor support, preferences, insurance grid)
☐ Yes ☐ No ☐ N/A 10pts
- j. Wraps up Call by completing All of the following ☐ Yes ☐ No ☐ N/A 20pts
 - Confirms appointment details*
☐ Yes ☐ No ☐ N/A
 - Informs patient of Phreesia paperwork procedures*
☐ Yes ☐ No ☐ N/A
 - Informs patient of DASH confirmation*
☐ Yes ☐ No ☐ N/A
 - Asks if patient needs additional assistance*
☐ Yes ☐ No ☐ N/A
 - Thanks the patient for calling Georgia Urology*
☐ Yes ☐ No ☐ N/A

B. Data Entry Review (Demographics)

- k. Collects and correctly enters patients name, D.O.B & address into the system
☐ Yes ☐ No ☐ N/A 15pts
- l. Correctly enters insurance plan
☐ Yes ☐ No ☐ N/A 15pts
- m. Captures Guarantor Information
☐ Yes ☐ No ☐ N/A 10pts
- n. Appropriately sets authorization fields
☐ Yes ☐ No ☐ N/A 10pts
- o. Collects Email address or uses NA when applicable
☐ Yes ☐ No ☐ N/A 10pts
- p. Collects primary and secondary phone numbers
☐ Yes ☐ No ☐ N/A 10pts

- q. Inputs Referring physician and PCP's information/ Sends request to add the provider
☐ Yes ☐ No ☐ N/A 10pts
- r. Updates chart as necessary **Demographics, PCP & insurance** (Former patients that are now considered new patient* 3 plus years since their last visit)
☐ Yes ☐ No ☐ N/A 10pts
- s. Verifies correct policy holder (when entering new insurance plans or rescheduling a New Patient Self Scheduled appt)
☐ Yes ☐ No ☐ N/A 10pts

C. Call etiquette

- t. Has a friendly and welcoming tone throughout the call
☐ Yes ☐ No ☐ N/A 10pts
- u. Maintains a professional manner, keeps content of the call Georgia Urology related
☐ Yes ☐ No ☐ N/A 20pts
- v. Avoids interrupting the caller
☐ Yes ☐ No ☐ N/A 5pts
- w. Avoids the need for repeat information
☐ Yes ☐ No ☐ N/A 15pts
- x. Asks the necessary probing questions
☐ Yes ☐ No ☐ N/A 10pts
- y. Minimizes dead air during the call
☐ Yes ☐ No ☐ N/A 10pts
- z. Responds promptly to the caller's questions
☐ Yes ☐ No ☐ N/A 10pts
- aa. Empathizes with the caller
☐ Yes ☐ No ☐ N/A 10pts
- bb. Asks for permission prior to placing call on hold or transferring the call to the appropriate person or department
☐ Yes ☐ No ☐ N/A 10pts

Circumcision Consult Script

When scheduling a circumcision consultation, determine the patient's age prior to getting demographics or reviewing the script.

"I would like to clarify that this appointment is a consultation with the physician, surgery will not be performed on this day. Our physicians perform Circumcisions once the child is 6 months or older based on availability unless urgent or medically necessary. We perform circumcisions in an outpatient or hospital setting under general anesthesia. The physician will perform a physical exam & discuss the scheduling process during your consultation."

****Disclaimer:** If the child is under 3 months and the parents request to be seen sooner read the script below:

*We are happy to schedule your appointment sooner, but a follow-up appointment may be necessary before scheduling the procedure. **schedule the appointment 2 to 3 weeks out****

Foster Parents/Pending Adoptions: *We will see the patient for the circumcision consult, however, unless urgent or medically necessary, we cannot proceed with the circumcision until the adoption has been finalized and/or they've returned to their parent's custody.*

The Newborn Circumcision Center

- **Who** – Healthy, newborn baby boys up to 6 weeks of age & less than 13lbs (there is a screening process in place to determine eligibility)
- **What** – This is a newborn circumcision center offering *self-pay services only*. TNCC does **not** accept insurance. The cost is **\$950** & it is due in full 72hrs before the procedure.
 - **When** – ‘Soft’ launch is Tuesday 10/18/22
 - **Where** – 11835 Alpharetta Hwy, Roswell GA 30076
 - **Why** – We have identified a need in our community to provide this as birth hospitals increasingly deny newborn circumcisions for questionable indications & fewer insurance companies cover ‘elective’ circumcisions.
- **Scheduling** – The PSC does not schedule this clinic, we provide parents with the direct number
 - Phone number: 678.208.6288 or extension 7090

Circumcisions for Religious Reasons

This is information that we want to share BUT we should only discuss with callers if they bring up the subject.

"We **do not** perform circumcisions for religious reasons. We perform circumcisions in an outpatient or hospital setting under general anesthesia. This requires an initial consultation to determine if the patient is a good surgical candidate. Scheduling the procedure can take anywhere from 6-8 weeks after the consultation and the patient must be 6 months of age or older."

We want to be informed but these scenarios should be few and far between.

Orthodox Jewish practice:

A mohel (/moil/ a person who performs the Jewish rite of circumcision) handles newborn circumcisions - especially in the religious community

If there is a physical or medical problem, then the mohel will tell family to see a pediatric urologist

This does not mean that we will do circ on day 8 of life. We just weigh in as to whether the mohel can do it or not

Dr. Scherz provided names of two mohel's – We can give the names but the caller will have to research and reach out to them on their own. We aren't making referrals just helpful information to further assist the caller.

- Dr. Arthur Gumer
- Dr. Jonathan Metzl

If there is a medical problem that prevents the mohel from doing the circumcision our physicians will perform the procedure using our current guidelines. It will not be expedited but the Rabbi ****may**** be present during the procedure to say the required prayers. The parents would have to discuss this with the physician during the consultation. The Patient Support Center cannot guarantee this will occur they can just advise the parents to discuss it with the provider. ****This will ultimately be at the discretion of the physician and the surgical facility. IE: Covid is beyond our control... I doubt ORs are allowing Rabbi's to be present given the current pandemic & risks. ****

"This is Georgia Urology returning your call if you still need assistance please call us back, we are experiencing longer than normal wait times but we ask that you hold for an agent. We appreciate your patience and thank you for choosing Georgia Urology."

1. Confirm Legal Guardian:

For the first visit, we require that the legal guardian schedule and accompany the child to the appointment; Are you the legal guardian or do you have legal rights to make medical decisions for the patient?

If YES:

Great! Let's go ahead and get the appointment scheduled.

If they confirm they are the legal guardian but cannot attend the initial visit:

We prefer that the legal guardian accompanies the child to their first appointment. However, if you're unable to attend we can accept a signed and dated letter of consent giving another individual permission to bring your child in for the visit.

The letter must include:

- Your full legal name (as the guardian)
- The full legal name of the person you're authorizing
- A clear statement granting permission for them to bring the child for the initial appointment
- Your signature and the date along with a copy of your driver's license

The person you authorize to accompany your child must be 18 years or older and have a valid government-issued photo ID (such as a driver's license, state ID, or passport) that exactly matches the name in your letter.)

If NOT, the legal guardian:

I'd be happy to schedule the appointment directly with them. Would you like to provide their contact information so we can reach out, or would you prefer to have them call us at 404.252.2506?"

Pushback from caller:

Determine the following - Will the legal guardian/parent bring the child to the appointment?

- **If YES:** Proceed with scheduling, confirming that all demographic information is for the legal guardian/parent.
- **If NO:** Contact the guardian/parent to provide letter details (see above). If they cannot be contacted, do not proceed. Offer to call back or provide a number for them to call.

Note: Incarcerated Parents – They must sign documents allowing temporary medical decision rights. If your caller indicates they don't have this information you cannot move forward to schedule an appointment.

*******Special Circumstances – urgent/ emergent*******

In cases of urgent medical needs (such as testicular torsion or obstructing kidney stones etc.) someone other than the legal guardian may call to schedule the appointment.

In these cases:

- Create the patient's chart.
- Notify Floor Support and explain the full situation.
- Escalate to Ped's Triage- stay on the line with the caller and clearly explain to Triage the situation/ urgency.

This ensures that urgent issues are never delayed while still following chain-of-command and protecting the child's care.

**** If you're unsure whether it's a true urgent case, always check with Floor Support before proceeding.**

***“May I have the full name and
dob of the legal guardian that
will serve as the guarantor?
This person would be
responsible for any amount
insurance does not cover.”***

NGPG Updates:

The physicians and team at NGPG Urology are joining Georgia Urology Jan 1st, 2025:

If a NGPG patient is calling about a 2024 appointment. Please direct them back to NGPG - That number is 770.219.8765 (for all NGPG locations). They will need to hit option # 1 and then option #1 once they get into the appointment scheduling prompt.

We want to convey to patients that while the practice name changes, they will continue to receive the same excellent care from the physicians and our Care team!

Who are the providers joining?

- Ajay Gopalakrishna, MD
 - Devendar Katkoori, MD
 - Kalpit Patel, MD
 - David Stanley, MD
 - Annie Nguyen, AGCACNP
- **Loading providers in NextGen:**
Please make sure to load the new providers in the **NextGen environment**.
Label new Tab as **Gwinnett Northeast** to help familiarize yourself with the new providers. This will make it easier in the upcoming months.
 - We will begin importing existing patient appointments from the NGPG system into NextGen this weekend. The goal is to ensure that all patient appointments remain intact and consistent as we transition them into our system and make the process seamless.
 - Although we will begin receiving calls next week, we can only schedule 2025 appointments.

Key Points to Remember: Dr. Pareek and David Johnson will not, but we will be taking over their patient lists.

Important

Even though these patients are new to Georgia Urology, they are **not new** to their providers. We need to make sure the transition feels smooth and welcoming.

When answering calls from NGPG patients, here's an example of a warm greeting you can use:

"Thank you for calling Georgia Urology, this is [Agent's Name] with the Patient Support Center. How can I help you today?"

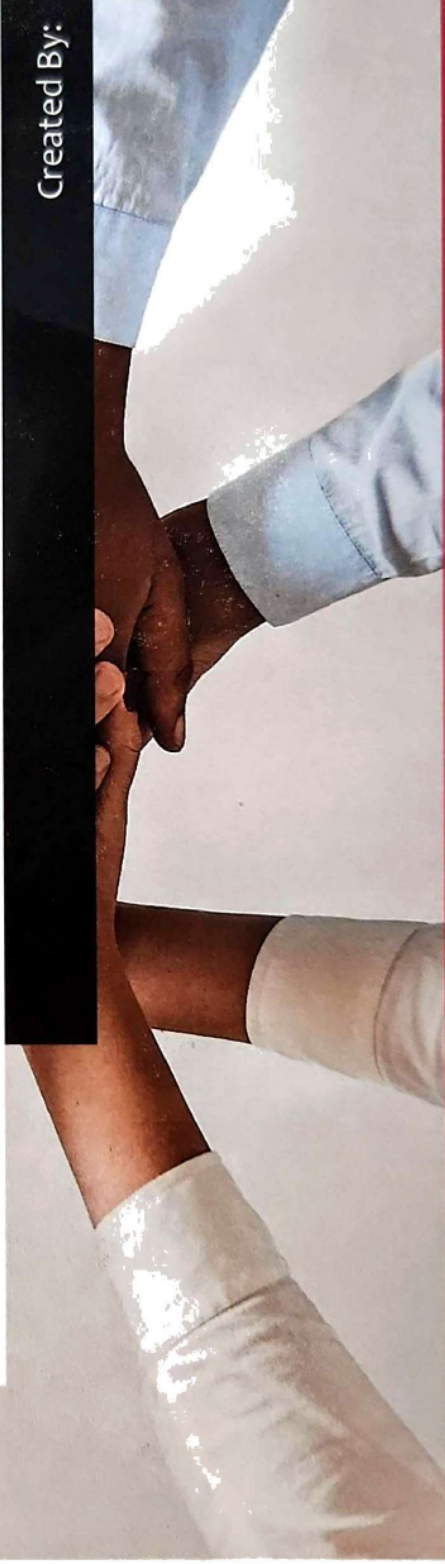

- Once the patient is identified as a *former* NGPG patient, continue with something like:
"Mr./Mrs. [Patient's Last Name], we'd like to welcome you to Georgia Urology and thank you for trusting us with your care. Let's go ahead and confirm your upcoming appointment or get your appointment scheduled. (more verbiage examples to come)"

Transfer of Care Do's and Don'ts

Created By:

Crystal Malone

Discussion Points:

- Appropriate and Inappropriate reasons to transfer care and why.
- When a Phone Note is required.
- How to relay the Phone Note process to the patient/caller.

Disclaimer

We should not be initiating the conversation. The patient/caller should be the conversation starter.

When is it Appropriate to Transfer a Patients Care?

Appropriate Reasons To Transfer

- Patient Satisfaction
- Relocation

Examples

- Bedside manors or staff customer service
- Relocation of patient's home or work

When is it Appropriate to Transfer a Patients Care?

Appropriate Reasons To Transfer

- Patient Satisfaction
- Relocation

Examples

- Bedside manors or staff customer service
- Relocation of patient's home or work

When is it Inappropriate to Transfer a Patients Care?

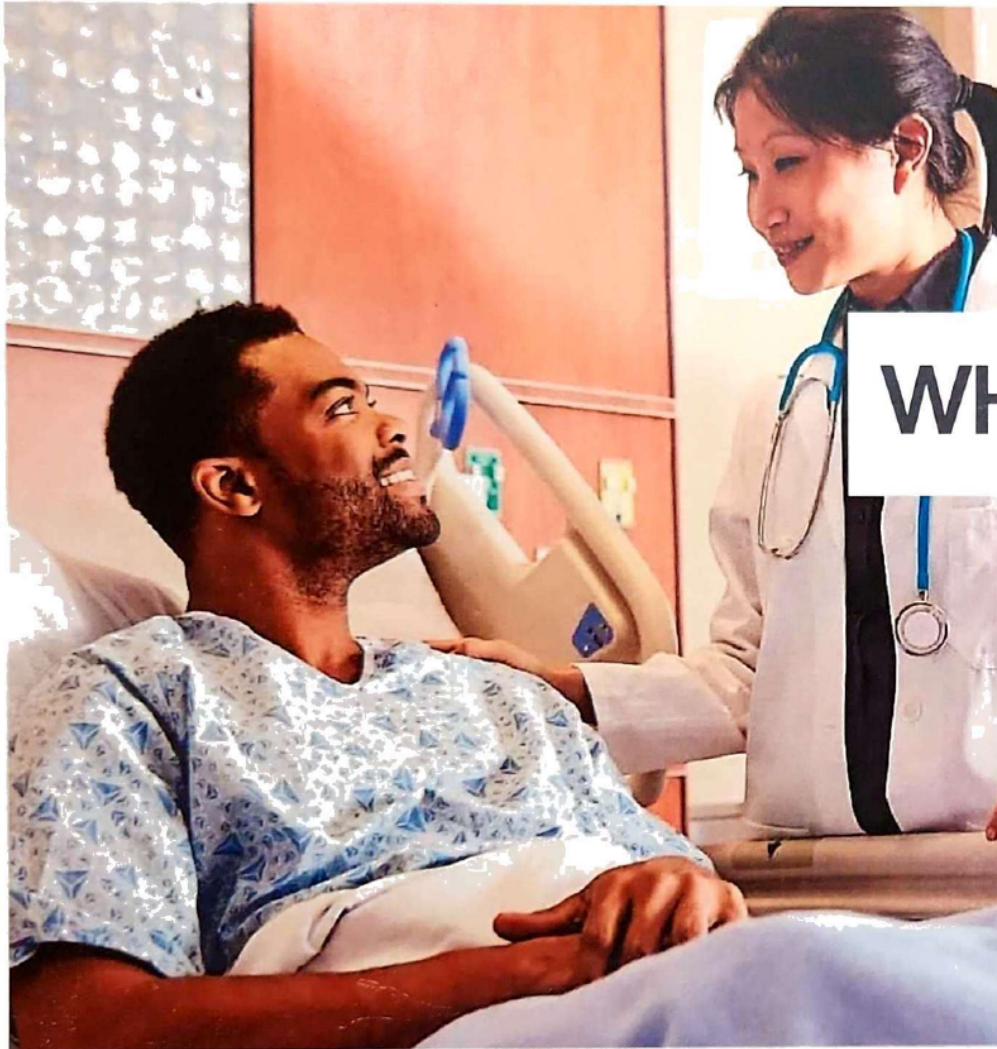

Reasons not to Transfer

- Sooner Availability

Alternatives we can offer

- Advanced Practitioners
- Waitlist

WHY?

We are a Specialist, not a PCP Setting. Our physicians prefer to keep their patients in their care to ensure rapport is built and to create a personable experience.

When is a Phone Note Required?

Dr. Walter Falconer

Interpreter	End of session AM
Accepts transfer patients *	Yes, phonenote must be sent prior to scheduling regardless if its been over 3 years

Dr. Carl Capelouto

Interpreter	First slot of PM session
Accepts transfer patients	Yes, no phonenote required

NP. John Buchanan

Same day adds?	transl
Accepts transfer patients	No

How to Relay the Phone Note Process

Appropriate Explanation

"Before we can transfer your care, the doctor would like to view your chart and past medical history. Once this is complete one of our team members will give you a call for scheduling".

Inappropriate Explanation

"Before we can transfer your care, the doctor will need to approve the transfer. I will send a phone note to the doctor, and once he decides if he approves the transfer, we will call you back".

Thank You

Crystal Malone
